Ocean Star 51.1 ft

The Ocean Star 51,1 was the first model designed and built from the Greek firm Ocean Yachts SA back in 1999. After two years, she was replaced from the 51,2 model which is in production until today (2006).

The deck layout on the Ocean Star 51,1 offers a teak covered sunbathing area , cockpits and extremely wide side decks as well as hatches and fittings located prudently to ensure easy and safe circulation on deck. Access to the deck is possible through an enormous innovative stern (bathing platform) that leads to totally uncut side decks, as well to the cockpits configuration.

The large guest cockpit offers space for 8 people around a standard table. The autonomous crew cockpit has twin mechanical steering positions, direct access to all winches, and functional process to the side decks by the stern, without annoying the guests.

This boat is "big" by all means, thus her sailing performances are not at the top of the category. Yet, the speed she can achieve under sails is not bad at all. Her behaviour in the rough Aegean Sea conditions, where the absence of "banging" when sailing against the wind and the stability down-winds are exceptionally good.

OCEAN STAR 51,1 offers luxurious interior, which at first glance below deck, speaks for itself. She is marvellous not only because of her spaciousness, but also because of exceptional quality on the perfect finish of the furnishing. Is the first time a Greek designed and built boat has such a good finishing and detailed quality.

The standard galley consists of refrigerator, freezer and gimballed gas oven - cooker. Light and ventilation are excellent and ensured in saloon and cabins by sufficient hatches and portholes. Numerous closets offers sufficient storing spaces in every correct situated position. The charter version offers four cabins/four heads plus a single skipper's cabin. This layout focuses on providing a greater number of cabins to accommodate more crew and guests. There is plentiful headroom which grants a spacious and luxurious interior with generous stowage throughout. Ample hatches, portholes, and air vents provide a bright, well ventilated interior.

When it comes to charter price it is one of the best you can find for the category, bearing in mind that this boat can carry 10 passengers (the two front cabins can accommodate 3 guests, although I do not recommend that) + a skipper's cabin.

Specifications:

- Year of built: 2000
- Cabins: 5(4)
- WC: 5(4)
- Guests in cabins: 11(7)
- L.O.A.: 15,45 m
- L.W.L.: 13,32 m
- Beam: 4,58 m
- Draft: 2,00 m
- Fuel capacity: 460 lit
- Water capacity: 900 lit
- Engine: Yanmar 100 hp (new)
- Bow thruster (new)

Special price: 125,000 euro
