### SPECIFICATIONS :

IRINA is a 74 tons wooden sloop, registered as professional touristic sailing boat by the Greek Authorities. "Professional sailing yacht" means she succeed (in 2006) to stability tests and different technical specifications.

For this reason she is allowed to sail with winds 6 Beaufort and stronger rather other professional touristic boats up to 83 feet are not. And the sails are not here just for take a picture ;- ) This classical wooden Greek yacht ( Kaiki ) was strongly built by one of the best carpenter of Cyclades. Her equipment is upper than the European rules including for example computer connected to satellite for see directly the way on the screen or liferaft category SOLAS which is Atlantic specifications. IRINA has a heavy duty 360HP turbo Volvo marine engine and around 200 square meters sails. There is a tender with Yamaha outboard engine, autopilot, 2 VHF, 2 GPS and the electronic standard equipment. There is always 220AC for charge any telephone or others like camera or MP3 player. There is also a generator for any big AC power need. Of course there is electric fridge, 2000 liters water tanks, hot water and all the equipment expected in such yacht like air conditioning in all the cabins.. There is snorkeling equipments, some fishing lines, and possibility to connect your MP3 player on the yacht stereo. The bar is open for basic beverages (refreshment or beers) and you can also bring and drink your bottles without extra-charge. There is a sunbath area with sun beds...

Everything for enjoy a comfortable cruise with very good food (breakfast and one lunch or dinner on board).
