**Cranchi Smeraldo 36ft for Sale**

This beautiful boat has been extensively upgraded according to the highest quality standards to offer more comfort and travelling pleasure.

The exceptional construction quality of the yacht is reflected in every detail. The additional platform which transforms this Cranchi in a 40ft yacht, now accommodates a 2,8m tender. Featuring two powerful engines (450hp each) this yacht reaches 40knots speed offering overwhelming thrill and unique experiences to its captain.

The first upgrade took place in June 2005 when the original Volvo engines were replaced by the more powerful, latest technology, electronic and eco-friendly IVECO N60 EMT M40. The addition of the yacht's platform and tender took place in 2006. All the upgrades took place in "Papanikolaou" shipyard, which is well known in Greece for its quality work.

Additional upgrades include a new 4KVA "Fischer Panda" generator. The furniture of the outside spaces was refurbished in May 2011, including a new tent which features a special highly reflective PVC coating.
